

ASUS Chromebook C202– Sleek yet tough!

The ASUS Chromebook C202 is a traditional clamshell notebook but has a reinforced, ruggedised chassis to withstand the rough and tumble of rowdy classrooms.

Chromebook C202: The classroom-rugged Chromebook

Chromebook C202 is a lightweight, ruggedized Chrome OS computer that is designed from the ground up for educational use. Chromebook C202 is more than tough enough to withstand the daily rigors of classroom use, and combined with its superb manageability and hassle-free serviceability it helps schools and colleges to minimize downtime and maximize learning time.

Chromebook C202 redefines the meaning of 'rugged', with several class-leading design features that give it outstanding durability and enterprise-grade serviceability in typical educational environments, including a tough wraparound rubber bumper with reinforced corners, a spill-resistant keyboard, a scratch-resistant finish and shock-proof solid-state storage. Chromebook C202 is subjected to military-grade reliability tests and is best in its class for drop-test survival.
